Video Editor · Creator Operations · Multimedia Storyteller

Remote · (323) 498-8638 · marsspeaks@gmail.com

Video editor and creator-operations specialist who takes content from raw footage to a published, on-brand deliverable — and keeps the platforms behind it running. 8+ years crafting multimedia content, plus a decade developing a long-form science fiction saga that explores humanity through the lens of the Other. Edits long-form educational and short-form social video end to end — audio cleanup, retouching, color, reformatting, and delivery — and manages the creator stack most businesses depend on: Kajabi, Kit, and ManyChat. A writer's eye for story, an operator's follow-through.
